ENERGY CONSERVATION TIPS FROM JIM HULL

"Help! You may not have noticed, but since the Iranian oil field strike, Energy Secretary James Schlesinger has been urging voluntary oil conservation efforts. The impact of the OPEC oil price hike is expected to contribute 6% to the inflation rate this year.

"A 10% reduction in energy consumption at Gallaudet is achievable without hardship on the student, staff or faculty. Do your part in achieving this goal by using energy wisely. Conservation is the result of all of us pulling in the same direction.

"Through November, two months into the fiscal year, our energy consumption is down 22% over the same period last year, much of it due to the warm fall. But winter has just begun - keep trying! We can make the 10% overall reduction for fiscal '79."

DON'T FORGET TO WATCH!

RAINBOW'S END premiered on Sunday, January 14, at 10:00 a.m. on WETA, channel 26. A repeat performance will be aired on Fridays at 11:30 a.m.

In last week's issue of OTG we printed an article about this new children's show and mentioned that deaf adults would make guest appearances on the program from time to time. It was listed that Douglas Tilden, sculptor, might be among those guest stars. A closer look into the life of Mr. Tilden reveals that he was born in 1897 and died in 1948. Actual guest stars to be seen on RAINBOW'S END will include stuntwoman, Kitty O'Neil and actress, Linda Bove.
